Junk Car Pickup Checklist

Selling a junk car is quick when the car and the paperwork are ready before the tow truck arrives. Go through this list the day before pickup.

Before you call

- Year, make, and model of the car.
- Where it is parked, and whether it runs.
- Anything missing, like wheels, the battery, or the catalytic converter.

Paperwork and keys

- Vehicle registration in your name.
- Government photo ID for the registered owner.
- Keys, if you still have them.

Clean it out

- Check the glovebox, trunk, door pockets, and under the seats.
- Take garage door openers and parking passes.
- Take your licence plates off. In Alberta the plates stay with you, not the car.

Tow day

- Clear a path to the car, and move anything blocking the driveway.
- Tell us about flat tires or tight spots before the truck comes.
- Keep your phone on so the driver can reach you.
- Call your insurer once the car is gone.
